

Remarks/Argument:

The application is subject to a restriction requirement. Group I claims (1-11, 16-16) are elected with traverse. Group II claims (12-15) are cancelled.

The Group II methods of making the apparatuses of the Group I claims include limitations drawn to those apparatuses. Accordingly, the methods can only be used to make such apparatuses and their equivalents and both sets of claims should be prosecuted together. This requirement is thus overcome and should be reversed.

Respectfully submitted,

/Todd Volyn/
